REQUEST FOR QUOTATION

Machined automotive components | Sample document for software testing

RFQ number	RFQ-TEST-2026-003	**Issue date**	08 November 2026
Quotation due date	20 November 2026	**Currency**	INR (Indian Rupees)
Customer	Company B	**Customer segment**	Two-wheeler manufacturer

1. Buyer details

Company name	Company B
Industry	Automotive - two-wheelers
Contact person	Aarav Mehta
Email	procurement@example.com
Phone	+91 90000 12345

2. Part details and annual requirements

Please submit your best manufacturing quotation for both components listed below. All weights are in kilograms and all prices are in Indian Rupees (INR).

Field	Part 1	Part 2
Part number	SPINDLE-TEST-002	GEAR-TEST-001
Part name	Rear wheel spindle	Gear blank
Drawing number	DWG-RWS-002	DWG-GB-001
Drawing revision	B	A
Material grade	EN8	20MnCr5
Manufacturing process	CNC turning and finish machining	Gear blank machining
Gross weight per part	0.61 kg	1.48 kg
Net weight per part	0.55 kg	1.30 kg
Annual volume	180,000 pieces	60,000 pieces
Customer target unit price (excluding GST)	INR 325.00	INR 210.00

3. Commercial and technical requirements

- Quote in INR, with GST shown separately.
- Show material, machining, tooling, inspection, packing and freight assumptions separately.
- State standard manufacturing lead time and monthly production capacity.
- Identify any deviation from the specified material, process, dimensions or weights.
- The target prices are indicative and are not agreed purchase prices.

4. Delivery and submission

Please submit the quotation by 20 November 2026. Reference RFQ-TEST-2026-003 and the relevant part numbers in your response. Clarifications may be sent to procurement@example.com.
