REQUEST FOR QUOTATION

Machined automotive component | Sample document for software testing

RFQ number	RFQ-TEST-2026-001	**Issue date**	08 November 2026
Quotation due date	20 November 2026	**Currency**	INR (Indian Rupees)
Customer	Company B	**Customer segment**	Two-wheeler manufacturer

1. Buyer details

Company name	Company B
Industry	Automotive - two-wheelers
Contact person	Aarav Mehta
Email	procurement@example.com
Phone	+91 90000 12345

2. Part details and annual requirement

Please submit your best manufacturing quotation for the following component. All weights are in kilograms and all prices are in Indian Rupees (INR).

Field	Required value
Part number	SPINDLE-TEST-001
Part name	Rear wheel spindle
Drawing number	DWG-RWS-001
Drawing revision	A
Material grade	EN8
Manufacturing process	CNC turning and finish machining
Gross weight per part	0.61 kg
Net weight per part	0.55 kg
Annual volume	180,000 pieces
Customer target unit price (excluding GST)	INR 125.00

3. Commercial and technical requirements

• Quote in INR, with GST shown separately.

• Show material, machining, tooling, inspection, packing and freight assumptions separately.

• State standard manufacturing lead time and monthly production capacity.

• Identify any deviation from the specified material, process, dimensions or weights.

• The target price is indicative and is not an agreed purchase price.

4. Delivery and submission

Please submit the quotation by 20 November 2026. Reference RFQ-TEST-2026-001 and part number SPINDLE-TEST-001 in your response. Clarifications may be sent to procurement@example.com.
